I am a Frontend web developer passionate about building responsive websites that allow businesses and entities have a wider reach and to increase their audience. I have the skill of transforming Mock Ups and User Interfaces into pixel perfect code. I love to take up new challenges and learn new technologies.

Skills & Qualifications

- 2 Years experience with frontend web development
- Experience in using WordPress to build websites
- Converting Mock ups into HTML and CSS code

Tech Stack

- **Languages:** HTML, CSS, JavaScript
- **Frontend Frameworks:** React, Bootstrap, Tailwind

Work History

WEB DEVELOPER | ITRUS

2015

I worked on building websites for clients using WordPress. I also spent sometime building email newsletters for the company.

FRONTEND WEB DEVELOPER

PRESENT

I spend time building and coding UI challenging on FrontendMentor.io. I am also actively learning and exploring how to use React.

Education

INTERCOM PROGRAMMING AND MANUFACTURING COMPANY (IPMC)

2015 - 2016

Diploma In Software Engineering
